

Great interest was aroused in the collection of blue and white English pottery, choice specimens from some 30 factories—and in the seventeenth-century Bible box and Bible—the exquisitely illuminated Book of Remembrance, in which are inscribed annually the names of Fellows and Members who have died after years of faithful service to humanity.

A happy hour was passed at a sit-down tea at the Council table, at which really tasty tit-bits, cakes and strawberries and cream, were thoroughly enjoyed with lively talk and fun, in a true spirit of international amity.

Before bidding goodbye to these very welcome guests, Mrs. Fenwick presented the four American students with "A little bit of Old England" in the form of a blue and white cup and saucer—made by Dawson, the celebrated Staffordshire firm of potters. She also invited Miss Wheelock to take care of, and present to Miss Elnora Thomson with her affectionate regards, two blue and white Salopian cups and saucers painted with birds. To each Student Mrs. Fenwick presented an inscribed copy of the Congress Programme, and to Miss Wheelock a copy of "The History of the International Council of Nurses, 1899-1925," by Brey and Fenwick. Apparently none of these historic documents had been brought to the notice of these Nightingale Students in "History of Nursing" studies. Unfortunately time did not permit of inspection of Nightingale treasures collected by Miss Bushby. Farewells were exchanged, with hopes of a happy future in various spheres of useful work.

## THE NURSES' MISSIONARY LEAGUE.

### SUMMER HOLIDAY CAMP.

What does it mean?

Members of the N.M.L. are nurses of all ages and from different spheres of work. Some from hospitals, still in training; others fully trained; others home on furlough from India, China, Africa and other fields. Each and all have met together for a short interval for relaxation and recreation of mind, body and spiritual refreshment.

Camp, which meets for a fortnight in June each year, has met this year at Woolacombe, N. Devon, a most delightful centre for many and various activities; housed in a most comfortable hotel standing in a splendid position within a few minutes' walk of the beach. There is a glorious stretch of sand three miles in length where easy and safe bathing can be enjoyed.

Everyone is free to plan her own outings. Parties are made up of old friends who have perhaps not met for a long time, also new friends are made; such unexpected surprises, for instance the finding there of a mutual friend.

Some of the young and energetic bathe before breakfast. Picnics are enjoyed, also lovely walks and rambles to many places of beauty and interest. Day and half-day coach trips to farther distances, such as Clovelly, Bude, Dartmoor, Buckfast Abbey, Cheddar, Glastonbury, Wells. Then there are mornings spent on the beach, where "sports" are the order of the day and prize-giving!

It is, indeed, a time of relaxation! Who would think to see this jolly, happy party that they were one and all workers, most of them having great responsibilities? What is the secret of this united joy, happiness and gaiety amidst so much to make one sad? Is it not the example of the Master who went about doing good? So each day at Camp there are opportunities for fellowship; all who wish are free to join in or to listen during discussions, Bible study and prayer.

Wherever the Camp may meet next year, any fully-trained or student nurses who would like to join the party will be WELCOME.

## APPOINTMENTS.

### MATRON.

**Hull Royal Infirmary.**—Miss Phyllis Watson, S.R.N., S.C.M., has been appointed Matron. She was trained at Guy's Hospital, London, where she was later Staff Nurse, Acting Night Sister, Surgical Night Sister, and Housekeeping Sister.
