### A NEW COUNCILLOR,

The President welcomed with pleasure Miss Ellen F. Brownsdon, a newly elected Councillor at her first attendance at the meeting, whose portrait we are pleased to present. She holds the certificate of the Lewisham Hospital, and the Health Visitors' Certificate of the Royal

Sanitary Institute, and is a State Certified Midwife.

Miss Brownsdon's many years' experience as an organiser in connection with the treatment centres of the London County Council has provided unique experience in the care of the school children of London, a service which, during the past twenty years, has rendered the very greatest benefit to the poorer population of the Metropolis.

Miss Brownsdon is a woman of very great public spirit; she has not only been a devoted servant of the London County Council for many years, but has taken a keen interest in national and international organisations. She has been a Director of the National Council of Nurses of Great Britain, and has attended several of the International Quadrennial Meetings, and was one of the four official delegates of our National Council, and deputed to take part in the meeting of the International Council of Nurses in Montreal in 1929.

It will be seen, therefore, that in electing Miss Brownsdon a Coun-cillor of the British College of Nurses, that institution will have the benefit of her invaluable experience and public spirit.

## WHAT OUR FELLOWS

ARE DOING. Miss Alice Torr of Toronto sends us an interesting report of what she terms "A New Thrill in Holidays," and adds, "I do not think you will have many of your members come over to Canada to follow in my footsteps." With this we agree, as in this highly populated little country

women have seldom opportunity of getting beyond what is termed civilization. So thrilled were we when reading Miss Torr's story of her visit to some claims in a gold belt, that her graphic description will appear in our next issue.

In the meantime she offers the following delightful hospitality. "In my past letters I have forgotten to tell you that I have a small comfortable home in Toronto, and as there is not much I can do to help the College, I shall be glad if you know anyone coming to Toronto-or passing through—if you will tell them they will be most welcome to a room, or anything I can give them, so that they may not have to face heavy hotel bills. Any English Nurse will be welcome to the best I have." Now isn't that just lovely?
