Nurses Pray in the Abbey.

The notice signed by the Dean of Westminster, affixed to the door of the Abbey, inviting the public "to join in a corporate act of prayer at the Tomb of the Unknown Warrior," where a space was railed-off with seats for 200 people, met a real need during the anxious days when peace was in the balance, and day after day the space was well filled by those who placed themselves in God's presence and pleaded for His mercy upon our bewildered and distracted world.

The enclosure was fullest during the lunch hour when those desiring to join in the intercessions overflowed far beyond the railed-off square.

During one day 120 nurses from Westminster Hospital went in little groups, as they came off duty to add their intercessions to those of the general public, and none realise more intensely the horrors of war and the urgent need for a world at peace.

P.O. Staff Matron Honoured.

On behalf of the King, the Assistant Postmaster-General Sir Walter Womersley, on September 19th, presented the medal of the Order of the British Empire to Miss Kathleen Roche, staff matron at the Post Office Savings Bank, West Kensington.

Sir Walter said that many a patient had been helped on the road to recovery by Miss Roche's sympathy and tact.

New Type of Prison.

The Howard League for Penal Reform suggest that a new type of prison shall be set up at Brixton to which men who have not been in prison before may be sent while awaiting

The League contends that the remand period should not be used for any purpose but the safe custody of the prisoner, and that untried men who have not had prison experience should not be placed in the company of "old lags." They should be allowed freedom to smoke, to play games and to receive visits from friends untrammelled by the ordinary prison regulations.

Offence to Patriotism.

Who, we wonder, was responsible for the deplorable blunder of awarding the prize for the Women's A.R.P. poster to a picture of a foreign woman? It is well that a poster depicting a British woman has been hastily substituted.

This reminds us that on the Lord Mayor's Committee for the Memorial to King George V, two out of the three women on the Committee were naturalised British subjects on marriage.

This is the type of offence to patriotism which it is not easy to condone.

Complete Equality for Turkish Women.

For the first time during the municipal elections which have been taking place in Turkey from October 2nd onwards, Turkish women have had complete equality with men. They had already had access to most careers formerly reserved for men, including Parliament, the bar and the army, but until the present elections they have been debarred from voting at the municipal elections and from filling executive posts in the municipalities. Now, in addition to voting, they will be eligible for all municipal posts, including those of mayor, councillor and alderman.

Mobilisation of Women in Rumania.

* King Carol of Rumania has signed a decree authorising the mobilisation of women in wartime either individually, or in classes, for service according to their capacities.
