

(2) Oral and Practical Examinations.

(i) The Oral and Practical parts of the Examination will be held in each Hospital where there are candidates.

(ii) The rule requiring that candidates should not be examined by Examiners from their own Training Schools will be waived.

(iii) The group of Examiners for the Preliminary Examination will be composed of one Medical Practitioner and one Nurse Examiner; the Nurse Examiner will be asked to include one question on Hygiene.

(iv) The group of Examiners for the Final Examination will be composed of a Physician, a Surgeon, and a Nurse.

NOTES.

(1) Written Examination.

(i) As it is proposed to hold the Examinations in the individual Hospitals, it is considered that the Examination might start at an earlier hour than usual and that in the event of large numbers of nurses taking the Examination, arrangements could be made, if necessary, for the candidates to be divided into two sets—the first set to

commence at 8 a.m. and the second set at 10 a.m. Arrangements to be made to prevent the two sets of candidates meeting.

(ii) It has also been decided to reduce the length of the Examination by half an hour for each Paper by setting fewer questions.

(2) Oral and Practical Examinations.

As difficulty might arise in carrying out the arrangements concerning the Examiners at some Centres, it has been decided that discretion be given to the Matrons of the Hospitals to arrange for a substitute in the case of any Examiner being unable to be present.

(3) Announcement of Results.

It has been decided that as far as possible the results of the Examination at any individual Hospital will be issued as soon as they are complete.

(4) Test Examination.

It has been decided to discontinue the Test Examination for the time being.
