SENN'S AROMATIC SEASONING.

(MR. CHARLES H. SENN, 329, Vauxhall Bridge Road, S.W.)

Is an article of more than passing merit. It is composed of absolutely pure herbs, spices, etc., free from artificial colouring, and will be found to be a most useful and palatable adjunct for flavoring soups, gravies, stews, and sauces, of all kinds.

MOSQUERA'S BEEF JELLY.

(THE MOSQUERA-INDIA FOOD CO., 16, Coleman Street, E.C.)

It is claimed for this article that it is a delicate preparation, largely composed of the products of the digestion of fresh lean beef, and it has answered the tests we have applied to it in the most admirable manner. It is palatable and nutritious, and as readily prepared as any ordinary beef extract.

MOSQUERA'S BEEF-CACAO.

(THE MOSQUERA-INDIA FOOD CO., 16, Coleman Street, E.C.)

This consists of a concentrated preparation of pre-digested powdered beef in combination with

specially fine Cacao and sugar. It makes a delightful, stimulating beverage, very readily assimilated. It is popular amongst children, who take it with considerable gusto, and has been spoken of with great appreciation by members of the medical profession.

Replies to Correspondents.

A. C. E.—The offices of the Royal British Nurses' Association are at 8, Oxford Circus Avenue, Oxford Street, W., and doubtless you could obtain all information upon application. You are quite wise to apply for membership although you have only just completed your three years. Trained Nurses owe it to themselves, as well as to their profession, to distinguish themselves from the rag, tag, and bobtail, who swarm into Nursing to obtain pseudo-respectability.

Indignant.—Yes. We think it an excellent idea, and if you will collect all the sayings and writings against your Association we will give it space in these columns and reprint it for you. Now that the success of the Association is secured it would be interesting to see how, and by whom, it has been opposed, and in future times it will doubtless be looked upon as a still greater curiosity, that some Nurses should actually have striven to prevent their profession being improved and purified from persons who disgrace it.
