PRIZE MEDAL ARTIFICIAL LEGS—with patent action Knee and Ankle Joints—enable the Patient to walk, sit, or ride with ease and comfort, wherever amputated. They are lighter in weight, less expensive, and more durable than any self-acting Leg hitherto introduced, and are worn by Ladies and Children with perfect safety. They were awarded the highest medals at the London and Paris Great International Exhibitions, and pronounced by the Surgical Juries to be "excellent in manufacture, well constructed, and on a system superior to all others."

THE PRIZE MEDAL ARTIFICIAL EYES have now been brought to the greatest perfection, and are so easy of adaption that they are fitted in a few minutes, without pain or operation, in any case where sight has been lost. The colours are perfectly matched, and a movement obtained precisely in accordance with the action of the natural eye. They are the only Artificial Eyes which have been awarded Prize Medals at the Great International Exhibitions of London, Paris and Dublin.
