

STATE REGISTERED NURSES

THE CARE THAT YOU CAN GIVE MEANS EVERYTHING TO WOUNDED MEN

In readiness for fast-approaching future events, the Q.A.I.M.N.S.R. is being expanded.

Applications for immediate commissioned rank are invited from S.R.N.s.

Of all the Nursing work today, the soldiers' needs *must* take first place. These men know and respect the Q.A.I.M.N.S., and honour its splendid traditions.

A leaflet with full details of Pay, Allowances, etc., is available on enquiring at your local Appointments Office of the Ministry of Labour and National Service, or by writing to: 24, Kingsway, London, W.C.2.

As a S.R.N., you have the knowledge and skill that can give back life to stricken men. Come forward *now*; it is vital that our ranks shall be complete.

Nurses who applied more than six months ago and were rejected because of lacking experience may make re-application now.

AN APPEAL TO EX-NURSES

If for personal reasons you cannot volunteer for Active Service nursing, please remember there are many opportunities to return to the

nursing profession. Your skill and experience are needed more than ever in the coming months, and if you can give full or part-time help, please get in touch with your local Appointments Office, or write to the above address.
