## Of what nature is that rash?

Rashes which are caused by external irritants—napkin rashes in the young, for example, or urine rashes in the old—are neither the least important nor the least obstinate of skin affections. They call both for immediate soothing and for prolonged protection against the risks of secondary infection.

‘Dettol’ Ointment, softening, cooling and sedative, brings relief from burning and irritation. And because it embodies the active germicidal principle of ‘Dettol’ antiseptic, it is remarkably helpful in clearing up skin disorders for which an antiseptic yet emollient dressing is indicated.
