

THE BRITISH JOURNAL OF NURSING

WITH WHICH IS INCORPORATED

THE NURSING RECORD

No. 2166. Vol. 97.

JANUARY, 1949.

PRICE SEVENPENCE.

MANY nurses who have the care of children will know with what eagerness their young charges look forward to 'Vimaltol' time. No child can resist the delightful sweet orange flavour of this eminently nourishing, energising and protective vitamin food.

'Vimaltol' is made from specially prepared malt extract, yeast and Halibut Liver Oil, and provides the important vitamins A, B and D. It is also fortified with additional vitamins and mineral salts, and is deliciously flavoured with orange juice.

Every nurse will recognise that 'Vimaltol' is supremely good for children. Its valuable nutritive qualities will help to increase strength and energy, maintain normal weight and healthy growth, and reinforce resistance. 'Vimaltol' is therefore a most desirable addition to the dietary of all children. It is equally delicious given from the spoon or as a spread on bread.
