

Officers of the Q.A.R.A.N.C. serve in hospitals in the British Isles, and in:—

- |             |             |
|-------------|-------------|
| Austria     | Jamaica     |
| Bermuda     | Malaya      |
| Ceylon      | Malta       |
| Cyprus      | Mauritius   |
| East Africa | Singapore   |
| Egypt       | Sudan       |
| Germany     | Trieste     |
| Gibraltar   | Tripoli     |
| Greece      | West Africa |
| Hong-Kong   |             |
- and on hospital and troopships

## Commissions for Nurses in Q.A.R.A.N.C.

(Queen Alexandra's Royal Army Nursing Corps)

Service in the Q.A.R.A.N.C. opens up an attractive career to accepted applicants for commissions in the British Army. They must be British subjects of British parentage, medically fit, and on the General Register of the General Nursing Council. There are also vacancies for State Registered Nurses with special qualifications, e.g., S.C.M., T.A., R.M.N.

### SHORT SERVICE COMMISSIONS

Under a new short service commission scheme candidates may choose to serve for a period of 2, 3 or 4 years. After the satisfactory completion of this period, a gratuity is granted at the rate of £50 for each full year of service. During this time the candidate may be considered for regular commissions.

Applications can be made from civilian sources or by officers who have been released. Applicants must be single, or widows without dependents, age 35 or under. Consideration is given in special cases up to the age of 40 years. Selected applicants are commissioned in the rank of subaltern (sister) and are eligible for promotion.

### EN ROUTE TO THE EAST

### TRAINING

Training courses are available in many branches of nursing to qualify for civil and military certificates.

Free accommodation, rations and all military amenities are provided.

Full details regarding pay, allowances (including uniform allowance to cover the cost of complete outfit), promotion, leave, etc., may be obtained from:—

The Matron-in-Chief, The War Office,

38 Hyde Park Gate, London S.W.7

It softens, soothes  
and helps to heal

For those minor but often distressing skin conditions which call for a dressing both sedative and antiseptic, 'Dettol' Ointment may be prescribed with confidence for both mother and baby. In the treatment of cracked

nipples, and where hardening has taken place, 'Dettol' Ointment has a soothing softening effect; whilst for relieving and clearing up napkin rashes, this calming, cooling, richly emollient ointment is confidently recommended.
