

GN.85

Skin needs care ...

... daily care with Nivea Creme.

There is no finer cream than Nivea to protect the skin and restore its natural softness. Doctors, nurses and midwives alike use and recommend Nivea ... they appreciate its therapeutic properties and general usefulness in home and surgery. Constant washing and immersion in anti-septic fluids tends to dry and impoverish the skin. Nivea Creme counteracts dryness and keeps hands smooth, supple and healthy.

Skin needs

NIVEA

Nivea contains Eucerite, a special ingredient to replace the natural protective oils of the skin.
